Allowable Subject Matter

Applicant's arguments, see Page 13, lines 1-19; Page 15, lines 14-23; and Page 16, lines 1-5, filed October 20, 2004, with respect to Claims 1, 8, 11, and 16 have been fully considered and are persuasive. Accordingly, the Office Action mailed on July 13, 2004 has been withdrawn.

The following is an examiner's statement of reasons for allowance: The prior art fails to disclose or render obvious the claimed combination including the step of prohibiting the fuel supply stopping element from stopping the supply of fuel when the catalyst temperature estimating element determines that the temperature of the catalyst lies in a high temperature range equal to or greater than a predetermined temperature; and reducing a quantity of intake air supplied to the engine when the supply of fuel is prohibited.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
